Per organization only one person is entitled to vote.

Only to be filled in, if different from point 2.

First name:		Surname:	
Position:		Telephone:	
E-Mail:			

Why does your organization want to join *No Patents on Seeds!*? Which goals does your organization want to achieve with the membership?
What does your organization expect from *No Patents on Seeds!*? Which benefits does your organization expect to achieve with the membership? (maximum of 500 characters)

biorespect fully supports the goals. Our goal is to place the topic "patents" more centrally again for our members and for the public. We are not a campaign organization, but can join actions. For more than 30 years, we have been vigorously intervening in the critical debate surrounding genetic engineering and biotechnology. As a small organization, we draw on external, well-prepared, critical information on a topic-by-topic basis.

What can your organization contribute to *No Patents on Seeds!* and its goals? (maximum of 500 characters)

We bring the goals and the actions of No Patents on Saagut! closer to our members. We want to bring the topic of "patents" back into focus because of its importance. In addition, we can each advertise/support actions and/or campaigns as far as this is practicable for Switzerland. For this purpose we use our member magazine AHA!, the newsletter and/or media releases.

Would your organization be able to contribute financially to *No Patents on Seeds!*? ☐ yes ☒ no

As we only have a very limited budget, we can provide a maximum amount of 100 Swiss francs per year as support.

Privacy policy

I agree that the above-mentioned organization as the responsible body will use and electronically and manually process the personal data collected by this application, such as surname, first name, address, e-mail address, telephone number and function in the organization, solely for the purpose of member administration and the transmission of information. These data transmissions are necessary for the purposes of administration and organization. A data transfer to third parties does not take place. A use of data for advertising purposes also does not take place. Upon termination of membership, the personal data will be deleted, unless they must be kept in accordance with legal requirements. In context of the provisions of the General Data Protection Regulation, each member has the right of information about the personal data stored about him/her by the responsible authority. The privacy policy (in German) can be accessed via the website of *No Patents on Seeds!*.
